LOUNGE-O-LEERS

The Lounge-O-Leers is planned mediocrity at best. The high end of mediocrity. In a society that has no boundaries and has a double stan-

dard, it is difficult to find the middle. **The Lounge-O-Leers** have achieved that in a casual fashion.

They are to music what "Austin Powers" is to film. It is uncanny that we would be allowed to wallpaper our ears with flock. There is no one else on this planet that has more greatness and high end brought to the center of sound. They are not great, they are simply here. Lounge-O-Leers is

two guys and a Casio player. They are not looking for attention, greatness, wealth or to be the best thing to come along this generation. And they have achieved it.

Like your lamp that your aunt gave you, “I want to like it.”

- Joey Reynolds

He is the undisputed leader of The Royal Order of the Night People. Considered to be one of the most creative persons in America, he has been involved in “showbiz” most of his life. He was inducted into the Rock ‘n’ Roll Hall of Fame in Cleveland a couple of years ago for his accomplishments in radio, television, and music. There’s only one Joey Reynolds. Joey rose to national fame as a Top 40 radio personality and many leading authorities in the radio think of Joey as the person who invented shock talk radio. Joey’s radio shows sparkle with a rare and wonderfully sharp, spontaneous wit that made him, then and now, one of the greatest personalities in radio.
