LES PAUL ON THE LOUNGE-O-LEERS

Well, I listen and I listen and listen...but I still don't understand it. This thing is like... thumbing peach-fuzz. I'll bet you that nine out of ten, they don't know what is happening. They don't get it. And the wonderful part about it is that those that don't get it probably are more right than the rest of us. I don't understand it, but I hope to steal something from them.

THE LOUNGE-O-LEERS ON LES PAUL

Les is undisputably a god. If all he did was make music, he'd be an inspiration...if he were nothing more than the inventor of the electric guitar, he'd be a revolutionary...if he were simply the mind behind modern multi-track recording, he'd be a visionary. But put them all together, and he is simply a god. And, to put it bluntly, whatever we are is undoubtedly his fault.

Les Paul & The Lounge-O-Leers
can be intermittently heard LIVE on
Joey Reynolds' syndicated late night talk radio show.
